Getting Prepared for 2021

You have heard me speak of Andy Pancholi many times in the past, and as you may remember, he was my coauthor on our book, *Zero Hour*.

His newsletter, *The Market Timing Report*, is one of the few newsletters that I read religiously. The market timing dates in his histograms are invaluable. Now don't get me wrong; he is not perfect and we don't always agree, but I do find his information extremely useful.

Andy just published a 78-page *Special Edition 2021 Market Forecast*. I genuinely believe that reading this report along with the *HS Dent Forecast* will help you prepare for the year ahead.

Andy's market forecast contains an analysis of **what to expect in the stock markets for 2021** and information on:

- Why we are greater risk from **global conflict** in 2021,
- Which arena is potentially going to see a significant financial crisis and why,
- What happens next in America, and
- Which political party is about to **implode** and why.

Andy also dives into his proprietary Crisis Matrix, which shows what to expect next.

As a bonus, over the next few days, Andy will send new subscribers an extra report about how to identify which countries and companies are the most likely to succeed.

At \$97, Andy's *Special Edition 2021 Market Forecast* and the bonus report really is quite a package. [Click here](#) to subscribe:
