

UNBOUNDED WEALTH

— STRATEGIES. INSIGHTS. BUILT TO WIN. —

I've Spent Decades Building Toward This

Over the years, I've watched investors make the same mistake again and again.

They chase predictions.

They chase headlines.

They chase the next "big thing."

And in the end...

most never get the results they expected.

Not because they aren't intelligent.

But because they never develop a disciplined process they can actually stick with.

That's the real problem.

Early in my career, I worked inside hedge funds during both the Dot-Com Bubble and the Financial Crisis.

I watched investors swing from euphoria to panic...

and make catastrophic decisions at exactly the wrong time.

Meanwhile, the investors who consistently survived — and thrived — approached markets differently.

They followed systems.

Not emotions.

Not headlines.

Not stories.

Systems.

That idea shaped the way I've invested ever since.

And after decades of managing money, building quantitative models, and working with institutional investors...

I'm finally launching something I've wanted to build for a long time:

John Del Vecchio's Real Money Portfolio

This is not a stock-picking service.

And it's not a "get rich quick" trading product.

It's a real-money, rules-based portfolio designed to:

- Identify major market trends
- Adapt to changing conditions
- Reduce emotional decision-making
- Help navigate both bull markets and difficult market environments

Importantly...

I'm investing my own money alongside subscribers using the exact same system.

Real money. My money.

The strategy focuses on large, liquid ETFs and combines:

- Trend-following
- Mean reversion
- Systematic risk management

No guessing.

No predictions.

No chasing every squiggle in the market.

Just a disciplined process.

I've put together a full presentation explaining:

- How the strategy works
- Why I built it
- The historical performance results
- How I'm using it with my own capital
- Why I believe this approach matters now more than ever

You can read it here by clicking the link below:

👉 [INSERT LINK HERE](#)

One final note.

The standard subscription price for the portfolio will be \$497 per year.

But during this initial launch period, founding members can join for:

👉 **\$297 per year — locked in for life**

Founding member pricing expires June 9, 2026 at Midnight Pacific Time

If this approach resonates with you, I'd encourage you to read the full presentation before enrollment closes.

Thank you for your trust and support.

I never take it for granted when someone spends their hard-earned money on something I've created.

I look forward to sharing this journey with you.

— John

P.S. Markets will always be unpredictable.

The goal isn't to predict them.

The goal is to have a process that helps you navigate whatever comes next.

That's exactly what I set out to build with the Real Money Portfolio.
